Please come along and meet the team - Richard, Sam, Amanda and Hazel - who are developing the Feasibility Study for the Lochmaddy Hospital Redevelopment. On Tuesday you are invited to visit the site and share memories of how the old buildings were used; this will help inform the design. On Wednesday share your opinions on priorities for the site; consider how you would like the development to look, from materials to be used to the style and layout of any buildings; discuss any issues or concerns you have. You can drop in at **any time** at any location.
